Additional definitions are provided in the related statutes and policies cited below.

Procedure

GENERAL

An employee who is budgeted by title for 50 percent or more time for at least four and one-half months, excluding students employed in positions that require student status as a condition for employment, is entitled to sick leave with pay. Employees are eligible to apply for sick leave with pay, sick leave without pay, sick leave pool hours, sick leave pool donation hours, family leave pool hours, family and medical leave, and parental leave subject to the restrictions and requirements of system policies and regulations.

2. CONFIDENTIALITY

All documents containing medical information are to be handled in confidence and compliance with the Texas A&M University System Records Retention Schedule (see Appendix section of this procedure). Supervisors must be sensitive to the desire of an employee to have medical information held confidential by Human Resources (HR). Any documents related to a serious health condition should be provided by the employee to HR. Handling of such documents by coworkers and other offices should be avoided. It is a supervisor's responsibility to keep administrative superiors informed about personnel absences and resulting departmental consequences and needs.

3. SICK LEAVE APPLICATION, DOCUMENTATION, AND APPROVAL

- 3.1. Sick leave with or without pay for an employee must be approved by their supervisor, subject to auditing by HR for compliance with system policies and regulations
- 3.2. An employee who must be absent from work due to an illness or injury must notify their supervisor or have their supervisor notified as soon as possible. The employee will submit a request for time off in Workday immediately. These requirements apply for all sick leave absences, whether working remotely or onsite, if the absence occurs during the employee's workday.
- 3.3. When an absence from work due to an employee's or immediate family member's medical condition exceeds three (3) continuous working days, the employee must provide a physician's statement or other written statement that is acceptable to HR and contains the facts concerning the illness, reason for the absence, and the estimated date of return to work. This statement must be provided to HR on or before the fourth day. All medical documentation must be sent to HR to file in a confidential manner. HR will notify the department chair/supervisor when documentation has been received and include the estimated date of return to work. For faculty members, HR will include the dean/director in the notice.

4. FACULTY SICK LEAVE USAGE

- 4.1. A faculty member at an institution of higher education as defined by section 61.003 of the Texas Education Code, must submit a time off request for sick leave if the absence occurs during the faculty member's normal workday and results in missing work commitments or scheduled events as defined in section 4.2 of this procedure. The request, documentation, and approval of this sick leave must comply with section 3 of this procedure.
- 4.2. Faculty commitments include, but are not limited to, teaching preparation, curriculum development, grading, research, scholarship, and creative

activities. Scheduled events include, but are not limited to, classes, office hours, department/unit/university and committee meetings, and other administratively assigned activities.

- 4.3. If a faculty member misses all commitments and/or scheduled events in a workday, the faculty member must submit a request for eight (8) hours of sick leave.
- 4.4. If a faculty member misses only a portion of the commitments and/or scheduled events in a workday, the faculty member will use sick leave for the time missed. For instance, if the faculty member misses two (2) office hours in the afternoon, but meets their evening class, they missed two (2) of the scheduled event hours for the day and must submit a time off request for two (2) hours of sick leave.
- 4.5. Eligible part-time faculty usage will be based on the proportion of their appointments.

5. USE OF AVAILABLE SICK LEAVE

- 5.1. Sick leave may be used when a medical condition, injury, pregnancy, or confinement prevents the employee from reporting to work or when the employee is needed to care for an immediate family member, as defined above, who is ill. An employee may use sick leave to care for a child.
- 5.2. Each fiscal year, an employee may use up to eight (8) hours of their accrued sick leave to attend their own child's educational and/or extra-curricular school activities in grades pre-kindergarten through 12. The employee must provide reasonable advance notice for this leave.
- 5.3. Additional information on sick leave usage is detailed in system regulation *31.03.02*, *Sick Leave*.

6. SICK LEAVE POOL

An employee who exhausts all available leave due to a catastrophic illness or injury of the employee or an immediate family member may be eligible for sick leave pool benefits. A notice of FMLA eligibility must be provided to the employee within five (5) business days of the employer being notified of a potential FMLA event. The employee's supervisor is responsible

for notifying HR of the employee's leave to ensure the employee is advised of their rights under FMLA within the range of absence.
